PERSONAL PROJECTS

Portfolio Website | HTML, CSS, React

- Developed a responsive personal portfolio to showcase skills and projects. Implemented form validation and animations for enhanced UX.
- Showcased projects, skills, resume, and contact form in a user-friendly layout.
- Used React Router for smooth navigation between pages without reloading.
- Hosted the website on platforms like GitHub Pages / Netlify for live access.

Online Shop Web App | HTML, CSS, React

- Built a front-end eCommerce platform with shopping cart functionality and product display using scroll features. Gained experience in inline styling.
- Integrated routing with React Router for seamless navigation
- Implemented product listing, shopping cart, and product detail pages using React components.

Weather App | React, API Integration

- Built a real-time weather app using OpenWeatherMap API. Practiced API calls and state management in React.
- Fetches live weather data such as temperature, humidity, wind speed, and condition using REST API.
- Implemented a search feature to get weather info by city name.
